Sachin Vaghari

sachinkumar95121@gmail.com | 9328475939

EDUCATION

NIRMA UNIVERSITY
B.Tech in Computer Science
June 2024 | Ahmedabad, In

SK PATEL UNIVERSITY
Diploma in Computer Engineering
May 2021 | Visnagar, In

COURSEWORK

Machine Learning
Deep Learning
Data Mining
Software Engineering
Data Structures And Algorithms
Cloud Computing
Agile Methodologies

SKILLS

Programming:
• Python • C • C++ • java • HTML • CSS • Javascript • ReactJS

Data Science:
• Supervised Learning • Unsupervised Learning • ANN • CNN • Transfer Learning • EDA • Feature Engineering • Data Mining • NLP • LLMs • LangChain • Scikit-learn • TensorFlow • Keras • NumPy • Pandas • Matplotlib • Spacy • NLTK

Databases:
• MySQL • MongoDB • Hadoop (Basics)

Cloud:
• S3 • EC2 • RDS • VPC • Lambda • Autoscaling Groups • AWS NAT • Security Groups • Load Balancer

ACHIEVEMENTS

Solved 1000+ DSA problems.
Selected for Amazon ML Summer School 2023 and awarded a **certificate**.

EXPERIENCE

CREST DATA | Devops Engineer
July 2024 - Present | Ahmedabad, In

- Part of the **LBAAS (Load Balancer as a Service)** team, managing service onboarding and deep troubleshooting for microservices deployed on **Kubernetes** using **IPVS** for virtual IP management.
- Developed and maintained infrastructure monitoring and alerting using **Prometheus**, **Grafana**, and **Icinga**, ensuring high availability and rapid incident response.
- Automated operational tasks and configuration management with **Ansible** and extensive use of **Python** for scripting and internal tooling.

CREST DATA | Site Reliability Engineer Intern
Jan 2024 – Jun 2024 | Ahmedabad, In

- Gained experience with AWS (EC2, S3, IAM, RDS, VPC), Terraform, and Jenkins for automating deployment, managing multi-tier web apps, system configuration, cloud resources, and CI/CD with GitLab.

SPARKS TO IDEAS | Machine Learning Engineer Intern
Jun 2023 – Jul 2023 | Ahmedabad, In

- Gained expertise in **Machine Learning** and **Computer Vision** with **Python**, **OpenCV**, **TensorFlow**, **CNNs**, and **scikit-learn**.
- Boosted image classification accuracy (87% to 92%) using **ResNet-50** and enhanced object detection by cleaning datasets with **labelImg**.

PROJECTS

DEVOPS GPT | Link
Built DevOps GPT using Python, React, and FastAPI for troubleshooting. Integrated FAISS for semantic search. Developed cost-effective summarization with OpenAI API. Enhanced on-call efficiency for incident management.

TOP FIVE WOMEN FACE RECOGNIZATION USING SVM | Link
Collected 1000+ images of 5 female cricketers, using OpenCV and Haar Cascade for face detection, Wavelet Transform for feature extraction. Built an SVC model with 84% accuracy and Flask UI.

BIRD IMAGE CLASSIFICATION USING CNN | Link
Developed a bird image classification CNN model with 15 species and 4447 images. Achieved 89.50% training, 92.53% validation, and 89.58% testing accuracy. Created a UI with FASTAPI and Node.js.
